Tech Works is a leader in audio and communications for the Healthcare industry and the Corrections industry. So it's not surprising that Tech Works has the answer when it comes to the highly specialized requirements of Nurse Call in Prison Hospitals and Infirmaries.

Combining high quality, clearly visible lights and simple, easy-to-use interface with rugged, tamper-proof composition, Tech Works NC Series systems for correctional facilities satisfy the need to communicate with the safety and security that matters in the harshest environments. And they are easy to install, economical, and maintenance free.

Features

|	
Direct Contact	A patient station at the bedside and a push-button in the restroom means you can call for help from anywhere in the cell.
NC Series	Calls are place by the push of a button and can be canceled at the station or remotely with a button or a key switch.
Optional IMR	**Integrated Management and Reporting c**an be added for reporting to monitor staff efficiency and activity or signal via the internet.
ADA Compliant	Call switches feature visual call acknowledgement
