

## CAT6-\*

### Patch Cable

#### BENEFITS

- Low Cost
- Totally Flexibility
- Easy set up
- Simple integration

The Tech Works CAT6-\* (“\*” specify Length) is an EIA 568B standard computer network Patch Cable designed to connect our Tech Works Collaborative Intercom (CI-Buss) and PA-Buss products together. These units are designed for the systems integrator to make installation Plug and Play.

Standard data twisted pairs provide audio and control connections from one unit to the next. Quality molded end connector make installation and reliable service both simple and performance predictable.

Our Patch Cables are stocked in 1 foot (CAT6-1), 10 foot (CAT6-10), 25 foot (CAT6-25), 50 foot (CAT6-50), and 100 foot (CAT6-100) lengths.

#### Associated Equipment

<b>CI-ODC-1</b>	Operator Desk Console
<b>CI-HSI-41</b>	Headset Interface
<b>CI-MSI-22</b>	Microphone Speaker Interface
<b>PA-402</b>	Music and Page Amplifier
<b>PA-SI-1</b>	Speaker Interface 1-Watt Amplifier
<b>IC-52B</b>	Intercom Amplifier
<b>2528B</b>	Intercom Amplifier and Control Module

#### Design Information

<b>Power</b>	N/A
<b>Mounting</b>	RJ-45 Connector
<b>Dimensions</b>	0.50" W x “*” Specify L

#### Architects' and Engineers' Specifications

Audio System Patch Cables must be provided for interface of the Intercom from one module to the next. The Patch Cables must be EIA 568B type with RJ45 connectors and integral strain relief. The Audio Patch Cables shall be Tech Works Model CAT6-\* (“\*” specify Length).
