

The Tech Works **NC-CBS** is a Code Blue Station in a semi-flush ABS plastic enclosure for durable emergency signaling. A "CODE" button generates a light signal to notify staff that "Code" Help is needed in a room. Staff is provided with a distinctive "CANCEL" button to reset the station.

An integral call confirmation LED notifies the user that a call has been sent. The Call Assurance Light will be Off if no call is pending, glowing steadily if a Normal Call is pending, and flashing if an Emergency Call is pending.

This is a passive button and light assembly designed for use with active stations like the **NC-DL-12** and **NC-DL-22** Dome Light. Screw Terminals provide wiring connection to the active electronic stations that provide signaling and control for the **NC-CBS**.

Mounting is a standard 1-gang electrical box. An integral back plate provides mounting and adaptor alignment for the **NC-CBS**.

NC-CBS

Nurse Call Code Blue Station

UL 1069 and CSA C22.2#205
5002971

BENEFITS

- Reliable Signaling
- No Maintenance
- Low Power
- Simple Wiring
- Easily Integrates to other Systems
- Attractive Station Hardware

Associated Equipment

NC-DL NC-Series Dome Light

Design Information

Power 15V DC
Color White
Mounting 1 Gang Back Box
Dimensions 3.25" W x 0.5" D x 5" H
Weight 0.25 lbs.

Architects' and Engineers' Specifications

The Nurse Call System Code Blue Station shall be a standard one gang electrical box mounting device constructed of ABS plastic. A large CODE push button will let the system know that Help is needed in the room. A distinctive Cancel button shall be provided to reset the station. A call confirmation light shall be included to indicate that a call has been placed. The Code Blue station shall be a passive electronic device requiring no more than 3 mA at 15 Volts DC for full operation.

The Nurse Call System Staff Presence Station shall be Tech Works Model NC-CBS
