

The Tech Works PMI-B is a Bluetooth-enabled wireless portable music interface for playing customer provided music from their personal music device into controlled environment (clean room) applications. This device allows staff to pair their own personal Bluetooth-enabled device with a PA-402; this allows their own music to be played through the Tech Works intercom system. This affordable, wireless option makes it faster and easier than ever for staff to play their own music while working in controlled environments.

An AC/DC power adapter, a 3.5mm-to 3.5mm, and a 3.5mm-to -RCA stereo audio plug adapter are included.

PMI-B

Portable Music Interface Bluetooth

BENEFITS

- Compatible with Bluetooth-Enabled Devices
- Wireless
- Wi-Fi Enabled
- 33' Wireless Range
- Effortlessly Add Music

Associated Equipment

PA-402	Amplifier
CI-HSI-41	Headphone / Speaker Interface
CI-MSI-22	Microphone / Speaker Interface
SYSTEM 21 or CRS-RC	Ceiling Speaker
SYSTEM 5 or CRS-WM	Wall mount Speaker

Design Information

Power	5V DC - AC/DC Power Adapter Included
Color	Black
Mounting	Desktop
Dimensions	3.3" W x 2.6" D x 0.9" H
Weight	0.10 Lbs.
